P6.0 OXYVAC-GHE&D

@ 9726024747

Important

This Equipment should be operated & maintained only by technicians who are suitably trained, experienced with Industrial gas filling plant and fully conversant with the specifications.

In pursuing a policy of continuous improvement, the company reserves the right to alter the specification of any product without prior notification

Description

General

Oxyvac is the Indigenous Manufacturer of Different Range of Industrial Gas Handling Equipment and Devices. It is specially designed for distribution of Gas efficiently. We manufacture Equipment and Devices to client in complete compliance with industry standards using best quality materials. Prior to supply and installation gas panel and manifold stringently tested on standard quality parameters

All the components and equipments are meeting the Technical Standards/Specifications.

Features:

- Robust construction
 Longer service life
- Smooth operation
- Elevated durability

Gas Handling Equipment and Devices

Gas Pumps | Gas Valves | Gas Regulators | Pressure Gauges | Temperature Gauges | Gas Filters | Safety Relief Valves | Gas Cylinder Racks | Cylinder Cabinets | liquid Cylinder Repairing and Service
